CMMC Level 1 Certified

Pace Setter Solutions is a specialized Software Quality Assurance (QA) firm delivering high-consequence testing strategies and elite technical talent to Federal Agencies and Prime Contractors. We bridge the gap between complex software requirements and mission-ready deployments through a "Quality-as-a-Service" (QaaS) model.

CORE COMPETENCIES

- **Strategic QA Consulting:** Maturity assessments, automation architecture (Playwright, Cypress), and CI/CD integration.
- **Mission-Critical Compliance:** Section 508 Accessibility, HIPAA, and NIST-aligned validation.
- **Data Migration Quality:** 100% verification for legacy-to-cloud transitions.
- **Technical Staffing:** 48-72 hour deployment of pre-vetted QA experts.

DIFFERENTIATORS

- **The "Shift-Left" Advantage:** Integrating QA at the requirement phase, reducing defects by **40%**.
- **Niche Specialists:** 100% dedicated to QA. Proprietary 3-stage technical vetting.
- **The Pace Setter Dashboard:** Real-time "State of QA" reporting, transforming testing into actionable executive data.
- **AI-Accelerated SDLC:** Shortening release cycles via AI-driven test generation.

PAST PERFORMANCE (SNAPSHOTS)

- **Federal Health IT (CMS):** Engineered Node.js/Docker frameworks for national platforms; reduced 8-hour manual tests to **30 seconds**.
- **Data Migration (CMS):** Built custom automated validation solutions for HHA/HOSPICE datasets with **100% data fidelity** for millions of records in under 90 minutes.
- **Performance Engineering:** Validated system stability at **5,000 RPM**; Identified critical bottlenecks prior to peak federal enrollment periods.
